#### 1.1. Introduction

#### Australia

**Australia** presents a **very reliable investment market** for PPP projects, which are vital to the development of infrastructure in the country.

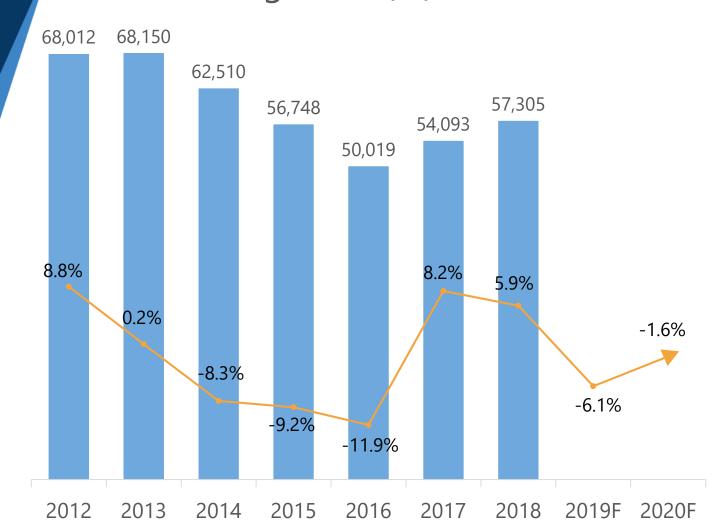

The National PPP Policy and Guidelines provide a **consistent framework** for the public and private sector to work together. The treasury departments of some states have also issued their own PPP guidelines. Furthermore, the central state and territory governments produce strategic infrastructure plans.

The country presents a **strong pipeline** of PPP projects since the establishment of the National PPP Policy Framework in 2008. In 2019 investment in PPP projects reached an amount of USD 69 billion, after USD 27.7 billion in 2018 and USD 2.3 billion in 2017.
